

High-density Foam

- ▶ **Model: YC-HM160**
Shape size: 300×300×20mm
- ▶ **Model: YC-HM161**
Shape size: 300×300×100mm
- ▶ **Model: YC-HM162**
Shape size: 300×600×80mm
- ▶ **Model: YC-HM163**
Shape size: 300×300×80mm

Body Calipers

YC-HM178

YC-HM179

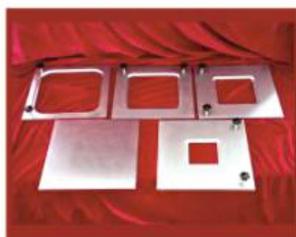

Model: YC-HM178

1. Packaged by aluminum box;
2. Measurement length is 500mm, accuracy is 1mm;
3. With scale instructions of tangent 90° for breast.

Model: YC-HM179

1. Digital liquid crystal display (LCD) is imported;
2. Measurement length is 500mm, accuracy is 1mm.

Beam Block Mold

Model: YC-HM153

1. Used for electronic-ray;
2. Lightweight metal material;
3. Used for Siemens accelerators only;
4. 5 various sizes per set;
5. It comes with bottom board.

Model: YC-HM154

1. Used for electronic-ray;
2. Mould steel material;
3. Use for Elekta only;
4. It can cast the required lead on the lateral opening side directly.

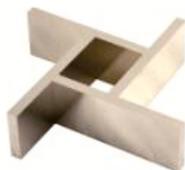

Model: YC-HM155

1. Used for electronic-ray;
2. Mould steel material;
3. Use for Elekta only.

Model: YC-HM156

1. Used for x-ray;
2. Lightweight metal material;
3. 4 pieces per set;
4. Maximum range is 200×200mm.

Low-melting Point Alloy

1. The melting point of the alloy is 70°C ;
2. It is 9.7kg/cm³; Silver color;
3. Adopted by the international standard that is 99.99% high purity of material to produce.

YC-HM159

Block Casting

YC-HM158

1. Die steel material;
2. It has screws for horizontal adjustment.

Blocking Tray

Model: YC-HM164

1. Non-porous;
2. Acrylic material;
3. Please provide the samples.

Model: YC-HM165

1. Porous;
2. Acrylic material;
3. Please provide the samples.
