

Features:

1. 3 pieces in per set;
2. Laser power: 1mv;
3. Adjustment range:
parallel shift $\pm 20\text{mm}$, angle shift $\pm 12^\circ$, rotation around the axis $\pm 15^\circ$;
4. Laser wavelength: 650nm;
5. Line width projection light: 1mm at 2.5m;
6. Power: 220V $\pm 10\%$ 50Hz;
7. Weight: 1.5kg.

Digital horizontal rule

LS160II

It is digital readout rule and with audible cue at 0 degree. It can measure 360 degrees and has its own calibration function.

Barometer

DYM3

Laser-light protective goggles

YC-JH

- It can effectively prevent laser damage to the eyes.
- It used for green and red light.

Thermometer

WB
